Problem Statement

Students find it hard to get reliable, company-wise placement materials and guidance from alumni. Sharing files and information manually takes a lot of time and is not well organized.

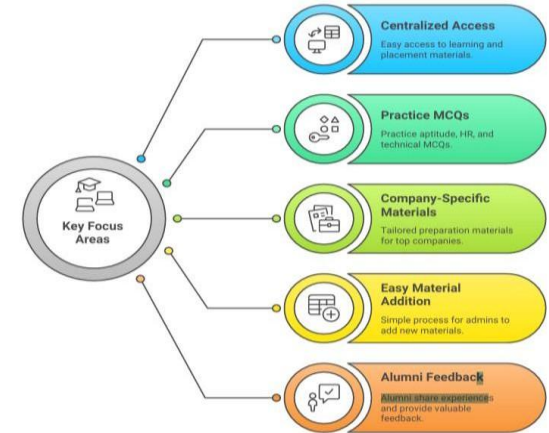

Scope of the Project

Key Focus Areas

- Provide centralized access to learning materials and placement-related resources.
- Allow students to prepare aptitude, HR round and technical questions.
- Deliver company-specific preparation materials (Infosys, TCS, Wipro).
- Enable admins to easily add new materials .
- Alumni share experience and provide feedback.

Expected Benefits

- Saves time by offering all preparation resources in one portal.
- Helps students systematically prepare.
- Increases the number of students who clear recruitment rounds.
- Supports the college placement cell during training and pre-placement activities.

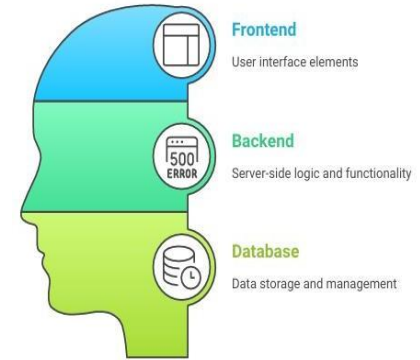

Project Design

Software Components Involved

- **Frontend:**
Student dashboard, material viewer, alumni feedback section, updates page.
- **Backend:**
Material management, feedback storage.
- **Database:**
Stores notes, alumni experiences, company information.
- **Additional Features:**
Search bar, personalization.

Software Architecture Overview

Block Diagram

Student Placement Preparation Portal Workflow

Methodology

Steps or Approach Followed

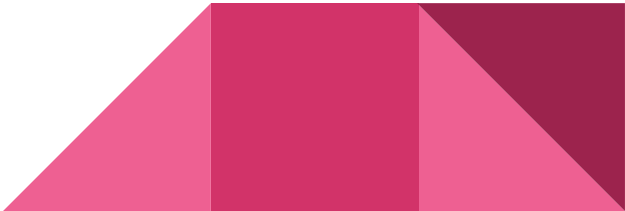

1. Requirements

- Identified the need for centralized study materials
- Gathered alumni interview feedback

2. Planning & Designing

- Designed the student dashboard layout
- Structured modules: Study Materials and Alumni Feedback.

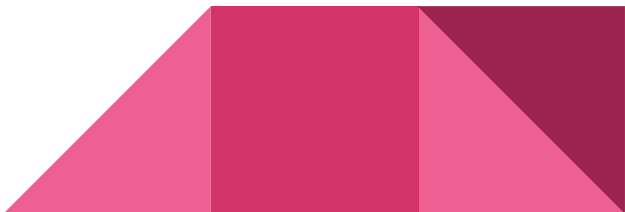

3. Backend Development

- Implemented study material upload & retrieval system
 - Created database for alumni feedback storage
- 

4. Frontend Design

- Created responsive layouts using **HTML, CSS**.
- Designed separate sections:
 - Study Materials
 - Alumni Feedback
 - Company Information

Tools and Technologies Used

- **Frontend:** HTML, CSS.
 - **Backend:** Python (Django Framework)
 - **Database:** SQLite / MySQL
 - **Version Control:** GitHub
- 

Implementation

- Developed structured modules for **Study Materials**, **Alumni Feedback**, and **Company Information**.
- Implemented an alumni feedback system with company-wise listings and tips.
- Designed a responsive frontend using **HTML**, **CSS**.
- Developed backend APIs and database models in **Django** for storing materials, feedback, and information.
- Integrated frontend and backend for real-time data display.
- Added categorized study materials for easy navigation.
- Database used to store study materials and feedback.

The screenshot displays the Django administration interface. At the top, a dark blue header bar contains the text "Django administration" on the left and "WELCOME, AYESHA_SYED123. [VIEW SITE](#) / [CHANGE PASSWORD](#) / [LOG OUT](#)" on the right, followed by a circular icon. Below the header, the main content area is titled "Site administration". It is divided into two columns. The left column has two sections: "AUTHENTICATION AND AUTHORIZATION" with links for "Groups" and "Users" (each with "+ Add" and "Change" options), and "MAIN" with links for "Alumni feedbacks", "Companyans", and "Study materials" (each with "+ Add" and "Change" options). The right column is titled "Recent actions" and contains a section "My actions" listing recent activities: "Ayesha_234 User", "Wipro Company", "Aptitude And Reasoning Study material", and "Syed Shahbaz - Tata Consultancy".

Challenges Faced

- Organizing a large volume of study materials into clear, user-friendly categories.
- Ensuring authenticity and accuracy of alumni feedback before publishing.

How Challenges Were Solved

- **Categorized Materials Clearly:**

Organized study materials into subjects, topics, and difficulty levels for easy navigation.

- **Verified Alumni Feedback:**

Added a review system where coordinators approve alumni inputs before publishing.

Welcome to the Student Placement Preparation Portal

Find study materials, alumni insights, and placement updates.

For Students:

The Login page features a white modal box centered on a background image of students in a library. The modal has a blue header with the word "Login". Below the header, there are two input fields: "Username" with the text "megha_124" and "Password" with masked characters ".....". A blue "Login" button is positioned below the password field. At the bottom of the modal, there is a link that says "Don't have an account? [Register](#)".

The Register page features a white modal box centered on a background image of students in a library. The modal has a green header with the word "Register". Below the header, there are four input fields: "Username" with the text "megha_124", "Email" with the text "meghagk@gmail.com", "Password" with masked characters ".....", and "Confirm Password" with masked characters ".....". A green "Register" button is positioned below the confirm password field. At the bottom of the modal, there is a link that says "Already have an account? [Login](#)".

Alumni Feedback

- **Syed Shahbaz** (2022):
"Joining TCS was a great opportunity for me. The company provides good training and career growth. My advice to juniors is to stay confident, work on DSA and communication skills, and participate in mock interviews."
- **Pragna Sudhir** (2021):
"The interview panel was friendly and focused mainly on basics and project explanation, making the process comfortable. Overall, the experience was smooth and beginner-friendly for freshers"
- **Mohammed Afzal** (2019):
"The interview focused on logical thinking, fundamentals, and a clear explanation of my project. Overall, the panel was polite, and the entire process felt structured and beginner-friendly"

For Admin:

The screenshot shows the Django administration interface for the 'Companies' model. The breadcrumb trail is 'Home > Main > Companies'. The left sidebar shows the 'MAIN' section with 'Companies' highlighted. The main content area has a search bar and a table of companies. The table has columns for selection, company name, and an 'Add' button. Three companies are listed: COMPANY, Infosys, and Wipro. The 'Action' dropdown is set to '-----' and the 'Go' button is visible. The text '0 of 3 selected' is shown.

For Admin:

The screenshot displays the Django administration interface for managing alumni feedbacks. The top navigation bar includes the title "Django administration" and a user greeting "WELCOME, AYUSH A.". The breadcrumb trail shows the path: Home > Main > Alumni feedbacks.

A green success message at the top states: "The alumni feedback 'Mohammed Afzal - Infosys' was added successfully."

The left sidebar contains a search bar and a menu with the following sections:

- AUTHENTICATION AND AUTHORIZATION**
 - Groups (+ Add)
 - Users (+ Add)
- MAIN**
 - Alumni feedbacks (+ Add)**
 - Companies (+ Add)
 - Study materials (+ Add)

The main content area is titled "Select alumni feedback to change". It features an "Action:" dropdown menu (currently showing "-----") and a "Go" button. Below this, a list of three alumni feedbacks is shown, each with a checkbox:

- ☐ ALUMNI FEEDBACK
- ☐ Mohammed Afzal - Infosys
- ☐ Pragna Sudhir - Wipro

Below the list, it indicates "3 alumni feedbacks".

Fig: Viewing Feedbacks

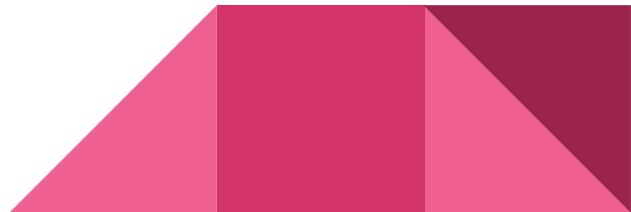

Conclusion

- The portal provides all essential placement resources in one unified platform.
- Study materials help students prepare systematically for aptitude, technical, and interview rounds.
- Alumni feedback gives real insights into company processes and boosts student confidence.
- Company updates ensure students stay informed about recruitment drives.
- The system reduces dependency on multiple sources by offering centralized, organized content.
- Improves preparation efficiency and supports better decision-making for students.
- Overall, the portal enhances placement readiness and increases the chances of student success.

Future Work

- Add mock tests and coding challenges for hands-on practice.
- Introduce a resume builder with ATS scoring and improvement suggestions.
- Add mobile app support for easier access to materials and information.
- Introduce gamification features like badges, points, and leaderboards.
